SOILS FOR EACH REQUEST

Of coating systems very different requirements are posed. The Bögershausen Bau GmbH developed together with you the solution, tailored to your needs. In addition to functionality, economy and application are taken into account, to offer an optimal result to the customer.

COATING SYSTEMS

- industrial floor systems
- anti-slip systems
- conductive systems
- water vapor permeable systems
- Coating Systems according to VOC/AgBB
- Car Park Systems
- decorative Systems
- wear-resistant systems
- chemically resistant systems
- crack bridging systems

Properties

- long-lived
- easy maintenance
- loadable
- hygienic
- sound-absorbing
- liquid-tight
- elastic
- jointless

Optional

- antibacterial
- anti-slip
- antistatic

suitable for

- high frequented areas
- wet areas
- underfloor heating
